DOTHAN, ALABAMA, SATURDAY EVENING, MARCH 11, 1911

ORGANIZE A

LET THE BUSOINESS MEN OFFER SOME PRIZES. NO TIME TO BE LOST.

Houston county is one of the best countles in Alabama to make corn. but thus far, no Boys Corn Club has been organized. The time is short, and all that is necessary is to have a for prizes offered, of sufficient value la get as many contestants as possible. It is possible that the fertilizer manufacturers would offer some offices. prizes to the boy of school age, who makes the most corn on one acre of land during this year.

Many boys of the South last year entered the contest, and quite a bunch had a free trip to Washington

The teachers all over the country could get busy and let the plans be known to the boys, so that they could begin now. No time is to be lost. Later, the Eagle will publish some thing of the plans, and hopes to be able to give the names of some prizes offered by people who are interested in seeing the county take some corn prizes.

TELEGRAPHIC TYPEWRITERS.

Dr. G. A. Cardwell has invented a device by which the copy written on one typerwriter is reproduced simultaneously on one or more other typewriters by means of electricity at any distance. The only connection between the two machines is the common wire of the telephone and telegraph system, and if the fomer is used it is possible to employ it for speaking purposes while the typewriter is at work. The wire does double duty and there is no fusion. The new typewriter is the common pattern only there is round case on top that holds the Already the special mechanism device is installed in many railroad

Our Summer Suits

will impress any young man at a glance with their uncommon style-and any young man withone of them on will impress any one at a glance with his uncommen appearance.

We attribute the continuous growth of our clothing business to the fact that men naturally gravitate to the store where they find clothing which fits their personality and thereby distinguishes them from the ordinary.

That is why our suits embody the natty features for young men as well as conservative ideas for med of quiet tastes.

Look out for severe and even dankinney and bladder trouble esulting from years of railroading. Geo. E. Bell, 639 Third Street, Fort Wayne, Ind., was many years a conductor on the Nickel Plate. He says: "Twenty years of railroading left my kidneys in terrible condition. There was a continual pain across my back and hips and my kidneys gave me much distress, and the action of my bladder was frequent and most painful. I got a supply of Foley Kidney Pills and the first bottle made a wonderful improvement and four bottles cured me completely. Since being cured I have recommended Foley Kidney Pills to many of my railroad friends." Sold by N. H.
